THIS fine young and thorough bred Stallion will stand the ensuing season, commencing March 10th and ending June 10th, at the following places, viz: At the Stables of P. S. Rutledge, at Abbevillo C. Lt., on the 11th and 12th inst.; at Greenwood on the 13th and 14th and the balance of the time at his own Stable, returning to his stands every ninth day.

And will be let to Marcs at the following low rates, \$10 the single visit, due when the marc is served. \$15 the season, and \$20 the insurance, the money to be due at the close of the season, or as soon as the marc proves to be in foal. Any one trading the marc before it, is ascertained whether she be in foal, will be liable for the insurance money. All accidents guarded against but no liability for any.

Revenue is a dark mahogany bay, full sixteen hands high, and five years old in March inst., and as it will appear from the following Pedigree, combines some of best racing blood in the Southern States, and as for form, symmetry and action will compare favorably if not surpass any five year old in the country, he was foaled the property of W, R. Smith, Esq., dec'd, and any one who knew him, knows how much he appreciated the therough bred horse.

March 8, 1861, 45 6t H. S. CASON, T. C. DR. LITTLE'S

VERMIFUGE.

In LARGE Bottles and Vials. Nothing class is required to relieve children of forms; and besides being one of the cheapest and est Vermifuges ever offered to the public. Its frequent use in families will save much trouble a expense, as well as the lives of many children— eight out of every in cases generally require it.

LITTLE'S ANODYNE COUGH DROPS.

A certain cure for Colds, Coughs, Bronchitte,
Asthma, Pain in the Breast; also Croup,
Whooping Onuple, &c., &c.,
amongst Children.

This is a pleasant medicine to take, producing immediate relief, and in nine out of ten cases a prompt cure. It exercises the most controlling influence over Coughs and Irritation of the Lungs of any remedy known, often stopping the most violent in a few hours, or at most in a day or two. Many cases thought to be decidedly coasumptive, have been promptly cured by using a few bottles. As anodyne expectorant, without astringing the bowels, it stands paramount to all cough mixtures.

LITTLE'S FRENCH MIXTURE,

This is prepared from a F-such Recipe (in the forms of No. 1 and 2; the first for the acute, and No. 2 for the chronic stage), and from its unexampled ancess is likely to supersede every other remedy for the cure of diseases of the Kidneys and Bladder, Gonorrhand, Blennorrhand, and Leuchorrhand or Fluor Albus affections. This extensive compound combines properties totally different in taste and character from any thing to be found in the United States Pharmacopenia; and in point of safety and officiency is not rivalled in America.

LITTLE'S RINGWORM & TETTER DINTMENT.

FORTIS, No. 2. Hundreds of cases of Chronic Tetters, Scald Heads, and disease of the skin generally, have been cured by tots remedy; and since the introduction of the No. 2 preparation (being stronger) scarcely a case has been found that it will not effectually cradicate in a short time. For the cure of Cancerons Bores and Ulcers it is applied in the form of plasters, and is almost infallible.

In more than two hundred places in Georgia, and is almost infallible.

In more than two hundred places in Georgia, and in the Southern Riates, they are to be had; and as there are scamps about who are counterfeiling his remedies, by palming off their own or something else, by using the same of similar names (for no patent is wanted or secured amid the abourd patents of the day.) let all be cautioned to look well for the signature of the Proprietor, thus:—
